

SKIRTBOARD RUBBER

SBR SHEET TYPE 101

UIP SBR SKIRTBOARD RUBBER

Manufactured for strength and durability, SBR Skirtboard Rubber is the ideal choice for highly demanding industrial and construction applications. This versatile rubber is a dense and impact-absorbent synthetic elastomer with high abrasion-resistance and extreme wear-resistance. It can help protect against conveyor belt wear and damage and has many other useful applications. When you need to keep your belts moving, trust our SBR Skirtboard Rubber.

Other Applications Include:

- Mounting Pads
- Sealing Strips
- Belt Wipers
- Bumpers
- Snow Plow Blades
- Chute Lining

Available in 50 foot rolls.
